⁽¹⁾ The information contained in this Financial Supplement is preliminary and based on data available at the time of the earnings presentation. Investors should refer to our Quarterly Report on Form 10-Q for the period ended March 31, 2018 once it is filed with the Securities and Exchange Commission.

This Financial Supplement includes non-GAAP measures. We believe these non-GAAP measures are useful to investors and users of our financial information as they provide an alternate measurement of our performance and assist in assessing our capital adequacy and the level of return generated. These non-GAAP measures should not be viewed as a substitute for reported results determined in accordance with generally accepted accounting principles in the U.S. ("GAAP"), nor are they necessarily comparable to non-GAAP measures that may be presented by other companies.

Table 5: Notes to Financial Summary, Selected Metrics and Consolidated Financial Statements (Tables 1—4)

- (1) Total net revenue was reduced by \$335 million in Q1 2018, \$377 million in Q4 2017, \$356 million in Q3 2017, \$313 million in Q2 2017 and \$321 million in Q1 2017 for the estimated uncollectible amount of billed finance charges and fees and related losses.
- Dividends and undistributed earnings allocated to participating securities and earnings per share are computed independently for each period. Accordingly, the sum of each quarterly amount may not agree to the year-to-date total. We also provide adjusted diluted earnings per share, which is a non-GAAP measure. See "Table 15: Calculation of Regulatory Capital Measures and Reconciliation of Non-GAAP Measures" for additional information on our non-GAAP measures.
- (3) Tangible book value per common share is a non-GAAP measure calculated based on tangible common equity divided by common shares outstanding. See "Table 15: Calculation of Regulatory Capital Measures and Reconciliation of Non-GAAP Measures" for additional information on non-GAAP measures.
- (4) Included in loans held for investment are purchased credit-impaired loans ("PCI loans") recorded at fair value at acquisition and subsequently accounted for based on estimated cash flows expected to be collected over the life of the loans (under the accounting standard formerly known as "SOP 03-3," or Accounting Standards Codification 310-30). These include certain of our consumer and commercial loans that were acquired through business combinations. The table below presents amounts related to PCI loans:

	2018	2017	2017	2017	2017
(Dollars in millions)	Q1	Q4	Q3	Q2	Q1
PCI loans:					
Period-end unpaid principal balance	\$ 10,542	\$ 11,399	\$ 12,658	\$ 13,599	\$ 14,838
Period-end loans held for investment.	9,935	10,775	11,985	12,895	14,102
Average loans held for investment	10,286	11,060	12,270	13,305	14,433

- 5) Total net revenue margin is calculated based on annualized total net revenue for the period divided by average interest-earning assets for the period.
- (6) Net interest margin is calculated based on annualized net interest income for the period divided by average interest-earning assets for the period.
- (7) Return on average tangible assets is a non-GAAP measure calculated based on annualized income from continuing operations, net of tax, for the period divided by average tangible assets for the period. See "Table 15: Calculation of Regulatory Capital Measures and Reconciliation of Non-GAAP Measures" for additional information on non-GAAP measures.
- (8) Return on average common equity is calculated based on annualized (i) income from continuing operations, net of tax; (ii) less dividends and undistributed earnings allocated to participating securities; (iii) less preferred stock dividends, for the period, divided by average common equity for the period. Our calculation of return on average common equity may not be comparable to similarly-titled measures reported by other companies.
- (9) Return on average tangible common equity ("ROTCE") is a non-GAAP measure calculated based on annualized (i) income from continuing operations, net of tax; (ii) less dividends and undistributed earnings allocated to participating securities; (iii) less preferred stock dividends, for the period, divided by average tangible common equity for the period. Our calculation of ROTCE may not be comparable to similarly-titled measures reported by other companies. See "Table 15: Calculation of Regulatory Capital Measures and Reconciliation of Non-GAAP Measures" for additional information on non-GAAP measures.
- (10) Efficiency ratio is calculated based on total non-interest expense for the period divided by total net revenue for the period. We also provide an adjusted efficiency ratio, which is a non-GAAP measure. See "Table 15: Calculation of Regulatory Capital Measures and Reconciliation of Non-GAAP Measures" for additional information on our non-GAAP measures.
- (11) Net charge-off rate is calculated based on annualized net charge-offs for the period divided by average loans held for investment for the period.
- (12) Capital ratios as of the end of Q1 2018 are preliminary and therefore subject to change. See "Table 15: Calculation of Regulatory Capital Measures and Reconciliation of Non-GAAP Measures" for information on the calculation of each of these ratios.
- (13) TCE ratio is a non-GAAP measure calculated based on TCE divided by tangible assets. See "Table 15: Calculation of Regulatory Capital Measures and Reconciliation of Non-GAAP Measures" for additional information on non-GAAP measures.
- ** Not meaningful.

⁽¹⁾ Interest income and interest expense and the calculation of average yields on interest-earning assets and average rates on interest-bearing liabilities include the impact of hedge accounting. In the first quarter of 2018, we adopted Accounting Standard Update No. 2017-12, Derivatives and Hedging (Topic 815): *Targeted Improvements to Accounting for Hedging Activities*. As a result, interest income and interest expense amounts shown above for Q1 2018 include \$1 million and \$30 million, respectively, related to hedge ineffectiveness that was previously included in other non-interest income.

Table 14: Notes to Loan, Allowance and Business Segment Disclosures (Tables 7—13)

- (1) Nonperforming loan rates are calculated based on nonperforming loans for each category divided by period-end total loans held for investment for each respective category.
- (2) Nonperforming assets consist of nonperforming loans, real estate owned ("REO") and other foreclosed assets. The total nonperforming asset rate is calculated based on total nonperforming assets divided by the combined period-end total loans held for investment, REO and other foreclosed assets.
- (3) Primarily consists of the legacy loan portfolio of our discontinued GreenPoint mortgage operations.
- (4) Represents foreign currency translation adjustments and the net impact of loan transfers and sales where applicable.
- (5) Charges for the impacts of the Tax Act of \$1.77 billion are reflected in the Other category of our business segment results for Q4 2017. This amount is a reasonable estimate as of December 31, 2017, which may be adjusted during the measurement period ending no later than December 2018. The Tax Act refers to the Act to provide for reconciliation pursuant to titles II and V of the concurrent resolution on budget for fiscal year 2018 enacted on December 22, 2017.
- (6) Some of our commercial investments generate tax-exempt income, tax credits or other tax benefits. Accordingly, we present our Commercial Banking revenue and yields on a taxable-equivalent basis, calculated using the federal statutory tax rate (21% for the first quarter of 2018 and 35% for all periods in 2017) and state taxes where applicable, with offsetting reductions to the Other category.
- (7) In the first quarter of 2018, we made a change in how revenue is measured in our Commercial Banking business to include the tax benefits of losses on certain investments. These tax benefits are included in revenue on a taxable-equivalent basis within our Commercial Banking business, with an offsetting reduction to the Other category. In addition, all revenue presented on a taxable-equivalent basis in our Commercial Banking business was impacted by the reduction of the federal tax rate set forth in the Tax Act. The net impact of the measurement change and the reduction of the federal tax rate was a decrease of \$28 million in revenue in our Commercial Banking business in the first quarter of 2018, with an offsetting impact to the Other category.
- (8) Average yield on loans held for investment is calculated based on annualized interest income for the period divided by average loans held for investment during the period for the respective loan category. Annualized interest income is computed based on the effective yield of the respective loan category and does not include any allocations, such as funds transfer pricing.
- (9) Total net revenue margin is calculated based on annualized total net revenue for the period divided by average loans held for investment during the period for the respective loan category.
- (10) Purchase volume consists of purchase transactions, net of returns, for the period, and excludes cash advance and balance transfer transactions.
- Percentages represent period-end loans held for investment in each credit score category. Domestic card credit scores generally represent FICO scores. These scores are obtained from one of the major credit bureaus at origination and are refreshed monthly thereafter. We approximate non-FICO credit scores to comparable FICO scores for consistency purposes. Balances for which no credit score is available or the credit score is invalid are included in the 660 or below category.
- (12) Percentages represent period-end loans held for investment in each credit score category. Auto credit scores generally represent average FICO scores obtained from three credit bureaus at the time of application and are not refreshed thereafter. Balances for which no credit score is available or the credit score is invalid are included in the 620 or below category.
- (13) Criticized exposures correspond to the "Special Mention," "Substandard" and "Doubtful" asset categories defined by bank regulatory authorities.
- ⁽¹⁴⁾ Includes charges incurred as a result of restructuring activities.
- ** Not meaningful.

Reconciliation of Non-GAAP Measures

The following non-GAAP measures consist of our adjusted results that we believe help investors and users of our financial information understand the effect of adjusting items on our selected reported results and provide alternate measurements of our performance. The following tables present reconciliations of these non-GAAP measures to the applicable amounts measured in accordance with GAAP.

	2018				2017							2017

Reconciliation of Non-GAAP Measures

The following non-GAAP measures consist of tangible common equity ("TCE"), tangible assets and metrics computed using these amounts, which include tangible book value per common share, return on average tangible assets, return on average TCE and TCE ratio. We consider these metrics to be key financial performance measures that management uses in assessing capital adequacy and the level of returns generated. While these non-GAAP measures are widely used by investors, analysts and bank regulatory agencies to assess the capital position of financial services companies, our measures may not be comparable to similarly-titled measures reported by other companies. The following tables present reconciliations of these non-GAAP measures to the applicable amounts measured in accordance with GAAP.

	2018		2017	2017	2017		2017

⁽¹⁾ Regulatory capital metrics and capital ratios as of March 31, 2018 are preliminary and therefore subject to change.

⁽²⁾ Amounts presented are net of tax.

⁽³⁾ Amounts based on transition provisions for regulatory capital deductions and adjustments of 80% for 2017 and 100% for 2018.

⁽⁴⁾ Total capital equals the sum of Tier 1 capital and Tier 2 capital.

Adjusted average assets for the purpose of calculating our Tier 1 leverage ratio represents total average assets adjusted for amounts that are deducted from Tier 1 capital, predominately goodwill and intangible assets. Tier 1 leverage ratio is a regulatory capital measure calculated based on Tier 1 capital divided by adjusted average assets.

⁽⁶⁾ Common equity Tier 1 capital ratio is a regulatory capital measure calculated based on common equity Tier 1 capital divided by risk-weighted assets.

⁽⁷⁾ Tier 1 capital ratio is a regulatory capital measure calculated based on Tier 1 capital divided by risk-weighted assets.

⁽⁸⁾ Total capital ratio is a regulatory capital measure calculated based on total capital divided by risk-weighted assets.

⁽⁹⁾ TCE ratio is a non-GAAP measure calculated based on TCE divided by tangible assets.

(10) Adjustments for the following periods consist of:

20	18	2017	2	2017
Q	1	Q4		Q1
\$	19	\$ 76		_
		1,769		_
		31	\$	99
	19	1,876		99
	4	27		(1)
\$	15	\$ 1,849	\$	100
	20 Q \$	2018 Q1 \$ 19 19 4 \$ 15	Q1 Q4 \$ 19 \$ 76 — 1,769 — 31 19 1,876 4 27	Q1 Q4 \$ 19 \$ 76 — 1,769 — 31 \$ 19 1,876 4 27

Dividends and undistributed earnings allocated to participating securities and earnings per share are computed independently for each period. Accordingly, the sum of each quarterly amount may not agree to the year-to-date total.

⁽¹²⁾ Includes impact of related deferred taxes.
